Theft registry — No records

We found no theft records.

certcar

This Certcar PDF report contains the information available at the moment the report was generated. For the most up-to-date data, we recommend consulting the digital report in your Certcar account. The information comes from external sources, partner databases, and/or available official sources, and their availability and accuracy may vary depending on the vehicle, country, and reported history. Certcar cannot guarantee that the report includes all events in the vehicle's history and is not responsible for changes that occur after the report generation date.

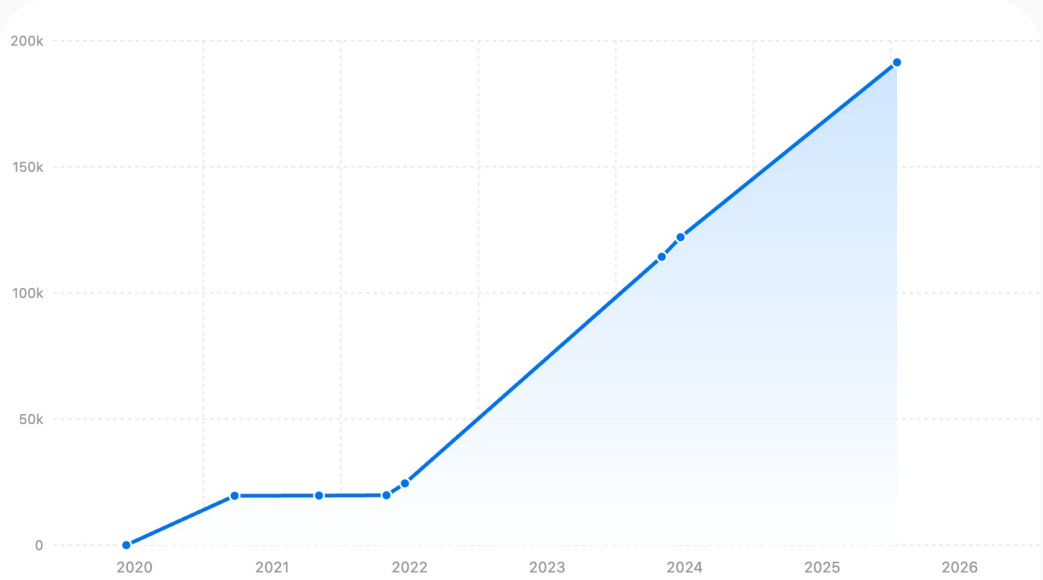

Mileage check

Track how the mileage evolves over time and any discrepancies between records, when they appear.

No inconsistencies

Note

- The chart shows the available mileage records. The absence of discrepancies does not guarantee the vehicle's actual mileage.

- Last known mileage: 191.430 km
- 9 mileage records found
- Average: about 34.200 km per year

Damages

Has it been in accidents? See what body elements were affected and how much repairs cost.

No damages

No recorded damages were found

Note

- Minor damages usually don't affect vehicle safety and don't cause structural problems.

Service history

A service history shows you how the car has been maintained over time.

Note

- The service history is based on the data available and may contain entry errors, translations, or incomplete descriptions. Verify the information against the car's documents or at an authorized service center.

	Date	Mileage	Country	Description
2026	01/2026	191.430 km		Service check

Market value

Find out whether the car's price is in the
right range for the current market.

Note

- The displayed value is indicative and does not represent a purchase or sale offer. The actual price may vary depending on the car's condition, equipment, history, and negotiation.

Current market value for BMW 530e

Determined by analyzing the price of a car model from the same year,
in the country where the report was generated. We examine data from the last 6 months.

Theft check

Find out whether the vehicle appears as stolen
or recovered in the verified databases.

No records

Note

- The check is based on the sources displayed in this section. The absence of a record indicates that the vehicle does not appear as stolen in the verified databases.

What we checked:

Theft history

- No theft records were found for this vehicle.

The check was performed in the available databases for stolen vehicles from:

Private database · Romania · Slovenia · Italy · Czech Republic · Slovakia · Hungary
